

Veiliux

AI Powered Cyber Security Services

Fast, reliable and efficient cyber security delivered by AI agents supervised by human experts.

veiliux.com | veiliux.com@gmail.com

Concept

VEILIUX

The strengths of machines and humans are complementary. Veiliux puts them together.

AI Agents

Extremely fast, tireless and scalable, but lacking judgement and context.

Humans

Smart, creative and context aware, but slow and hard to scale.

Combine Both

AI does the heavy lifting at machine speed while experts validate and direct.

AI Powered Cyber Security

VEILIUX

Veiliux combines the power of AI with human intelligence to deliver fast, reliable and efficient cyber security services, with the capability to deliver 100 projects per month.

100 Projects / Month

Delivery capacity across the full service portfolio.

Machine Speed

Automated discovery, testing and triage compress delivery timelines.

Human Assured

Every finding is validated by a certified security expert before delivery.

Market

VEILIUX

Sectors where speed, coverage and compliance pressure are highest.

Fintech

Payments, banking and lending platforms under constant attack.

Ecommerce

High volume storefronts handling card and customer data.

SaaS

Multi tenant products where a single flaw affects every customer.

Government

Public sector systems with strict assurance requirements.

Healthcare

Patient data and connected devices under heavy regulation.

Services

VEILIUX

Four core AI powered offerings.

AI Powered VAPT

Vulnerability assessment and penetration testing across web, mobile, network, cloud and API.

AI Powered Threat Intelligence

Continuous monitoring of exposure, leaked data and emerging threats.

AI Powered Red Teaming

Adversary simulation that tests detection and response end to end.

AI Powered Source Code Auditing

Deep review of application code to catch flaws before release.

Why Clients Choose Veiliux

VEILIUX

Security outcomes delivered faster, without the usual consultancy overhead.

Faster Turnaround

Engagements delivered in days, not weeks, thanks to AI driven testing.

Transparent Pricing

Scope based quotes with no hidden fees. Instant estimate on veiliux.com.

Expert Validated

Zero noise reporting. Every finding is confirmed by a certified tester.

Retest Included

We verify your fixes after remediation at no extra cost.

How We Work With You

VEILIUX

A simple engagement path from first call to verified fixes.

01

Scope & Quote

Share your assets and receive a fixed price quote.

02

Test & Analyse

AI agents and experts assess your environment.

03

Report & Debrief

Prioritised findings with clear remediation guidance.

04

Retest & Assure

We validate fixes and issue a clearance summary.

What You Receive

VEILIUX

Everything your team and auditors need.

Executive Summary

Business level risk view for leadership and boards.

Technical Report

Detailed findings, evidence and reproduction steps.

Remediation Plan

Prioritised fixes mapped to effort and impact.

Compliance Letter

Attestation to share with customers and regulators.

Let's secure your business

Tell us what you need secured and we will reply within one business day.
